"2004-53 Community Reinvestment Act"

All federally insured financial institutions should continue to be fully accountable under CRA for making investments and providing services. I Certainly also oppose the OTS proposal to consider favorably rural community development activities that do not primarily benefit low-income people or communities I live in one such area, and I would much rather see the areas that need the work the most be attended too. Even to the fact that one census area would be chosen over another within a rural community that would work. Our resources are stretched as it is.
